

Roller application for cookware

Now with a blaze of colour.

Teflon™ Classic

New colour and design options

Teflon™ Classic is a coating range for the large and stable end-user group of occasional cooks. They are interested in entry-level cookware and want value for money – whether they buy from the standard range or during a promotion.

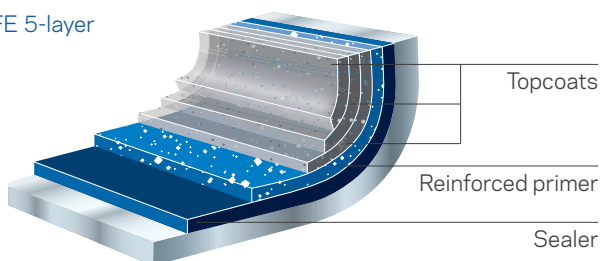

Roller coat on aluminium discs

This application method is perfect for large volumes of entry-level products. The technology focuses on economical multi-layer application, highly efficient production, and coating systems that meet the performance requirements of this user group.

Teflon™ Classic roller coating

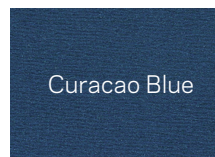

- Solid grip on substrate
- Applicator rolls can process aluminium disc of up to 3 mm gauge
- Dry film thickness: 25 µm
- Highly economical production
- Slightly textured surface

PTFE 5-layer

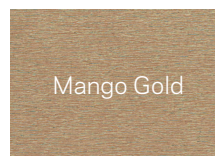

NEW: Colour your roller coat!

Add a touch of glamour to your roller coat offering! Satisfy your customers' appetite for new sensations at the POS! Trendy colours turn pots and pans into lifestyle accessories. There are 6 emotional colours you can choose from:

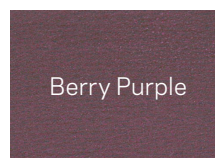

Curacao Blue

A sensual colour that evokes images of vibrant and cheerful Caribbean holidays.

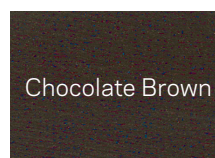

Mango Gold

Lush and velvety, this exotic colour is pure delight.

Berry Purple

An invigorating hue, bursting with summer life in the outdoors.

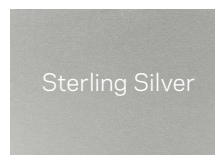

Chocolate Brown

Warm and soothing, a genuine feel-good colour.

Pure Pewter

Classy and chic, this colour is a stylish complement to any table decoration.

Sterling Silver

High quality looks give an air of natural elegance and relaxed charm.

NEW: Rock your roller coat!

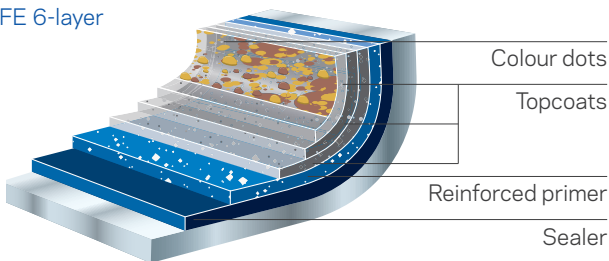

Enter a universe of imagination! The Rock Series provides you with endless creative ways to customize your cookware. Select any combination of 6 basic colours and 8 different inks to determine the density, size, and distribution you want.

Whatever your choice, the result will be great looks combining the timeless quality of natural stone with the breathtaking strength of a rock.

Rock Series

- Customise your design: there is a wealth of options at your fingertips
- Admire the looks: the stone optics signal toughness and durability
